EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean O'Hanlon on 1 June 2007.

The application has been amended as follows:

Cancel claims 13, 22 and 23.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: as set forth in the claims, the claimed alloy forms a majority portion of the nuclear fuel cladding tube. This clearly distinguishes the claimed invention from the prior art, particularly Mardon et al (US 5,023,048), because the prior art teaches using the alloys disclosed therein only as a thin outer protective layer, not as the majority component of the cladding tube.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
